Medakafish Homepage on the Internet

Hiroshi Hori and Kazuo I. Watanabe

Department of Biology, School of Science, Nagoya University, Chikusa-ku, Nagoya 464-01, Japan

Medakafish Homepage (Fig. 1) is the World Wide Web server to provide an online information service of medakafish (MF) by the MF research group in Nagoya University. Location of the server is; <http://biol1.bio.nagoya-u.ac.jp:8000/>. When you are trying to find the homepage on the Internet, just input the keyword "medakafish" to one of the many available on-line search engines (e.g., InfoSeek Net Search, etc).

Contents of the homepage are as follows.

- MF News and Opinions
- MF Wild Type Strains
- MF Phylogenetic Tree
- MF Mutant Strains (shown in Fig. 2)
- MF Genetic Linkage Map (shown in Fig. 3)
- MF Taxonomy
- MF Developmental Stage Map
- MF Museums
- MF Books

If you are interested in getting information from the contents, just click on any of the key words

(characters in blue) to go to their respective pages. You can also send any comments, news and questions about MF to hori@bio.nagoya-u.ac.jp.
