KEYWORDS:

- (1) All numerical values of time t in the paper should be divided by 10. As a result, all numerical values of the amplification rate ω should be multiplied by 10.
- (2) Fig. 4 represents mass distribution of clusters, $ln_l(t)$, but not the size distribution, $n_l(t)$. The title of the ordinate of Fig. 4 should be “Mass of clusters” instead of “Number of clusters”.
