

欧州：リトアニア研修

三小田 博 昭

(1) 目的

本プログラムの目的は、2つある。1つ目はリトアニア共和国の高等学校と両国にゆかりのある「杉原千畝」を核に交流し、その先にグローバルな現代的課題を見つけて協同研究すること。2つ目はこれまで培ってきた国際交流の実績と成果を他校に普及すること。他校とは、本プログラムでは愛知県立瑞陵高等学校（以下瑞陵高校と記す）である。瑞陵高校は杉原千畝の出身校で本校以上に繋がりが強い高等学校である。

(2) 実施方法

1) 参加生徒

Global Committeeで新たに募集した生徒7名。参加条件は「SGH開発単位Iの総合人間科の授業の中で平和や人権と共生に関わり、リトアニアと交流を望んでいる生徒であること。愛知県立瑞陵高等学校はSGH校ではないが、同様に課題研究を望んでいる生徒を募り、4人選考し、協同で活動している。

2) 事前学習

①リトアニアからVilnius Solomo Aleichemo ORT gimnazija生徒11名、引率教員1名の短期交換留学生受け入れ。ホームステイ開始。(本校で生徒7名受け入れ、瑞陵高校で生徒4名と引率教員1名計5名受け入れ。)

②瑞陵高等学校で事前学習を行う。本校生徒が瑞陵高等学校へ行き、瑞陵高等学校生徒と一緒にリトアニアや杉原千畝に関する学習を行う。講師は瑞陵高等学校教員が担当する。今年度は5回行う予定であったが、新型コロナウイルス(Covid19)の影響で1回しかできなかった。

③生徒の間で事前にメールの交換。お互いの国や学校、生活についての情報交換

○リトアニアの生徒

・ In Lithuania live 2.5 million people. It is in Europe and it is near Baltic sea. Our neighbour countries are Latvia, Poland, Russia and Belarusia. Right now it's a Autumn in Lithuania. People taking out jackets and coats from closets, trying to find their warm shoes and scarves. It's cold outside. Leaves are falling, rains and clouds reached the sky. People are getting ready

for Winter. In Lithuania, in Winter, it's really cold outside, it can be -20° C.

As far as you can see, everything is white, because of snow. Children are playing with snow, building snowmen. It's kind of fun in Winter time. After Winter comes spring. It can happen middle of February or middle of April. Nature gets up from long sleep. Snow is disappearing.

Trees and flowers bloom, animals wake up and try to find food. It's not very cold outside.

Sun is shining, light breeze blowing. People put away their scarves and gloves, but they still have jackets and coats with them, because Spring in Lithuania is unpredictable: it can be freezing or it can be really warm. You have to prepare for anything. It can be +5° C or +20° C.

Even if you forget something, my family is always ready to help.

・ I live in Vilnius, Lithuania. According to a study by a French scientist in 1989, Lithuania is in the geographical center of Europe. My country is surrounded by Latvia, Belarus, Poland, and the Baltic sea. The area of Lithuania is 65,300 km and here live 2,794 mln. people. The territory of Lithuania is divided into 10 areas: Alytaus, Kauno, Klaipėdos, Marijampolės, Panevėžis, Šiauliai, Tauragės, Telšiai, Utenos, and Vilnius. We will be living in Vilnius, which belongs to the biggest area. Vilnius is located in the southeast of Lithuania and is the largest city in my country. It has 536 631 citizens.

Lithuania is located in a cool-medium temperate zone. The name of my country in Lithuanian is made from word rain because it rains a lot here. In 2002 research shows that there were 177 with precipitation. The average temperature in summer is about 20 degrees Celsius, in winter about -5, -3 degrees.

The nature of Lithuania is beautiful and interesting. It's covered in forests, although a huge area of them is now extinct. Scientists say that one-third of Lithuania is covered with forests and you'll be able

to see some of them in Vilnius. Also because of rain, there are a lot of lakes and rivers in my country (there are counted 4500 lakes) .

Lithuanian language is one of the oldest languages. Our language relates to Sanskrit, Latin, and ancient Greek.

○日本の生徒

・ First of all, I'd like to introduce myself. I live in Aichi Prefecture in Japan. I am 16 years old and in the first grade of my high school.

I join the Brass Band Club and play the Tenor saxophone. I like playing it, because it can make various expressions. Also I like Disney movie, especially "Beauty and the Beast". I think all songs in it are so beautiful! In addition, Emma Watson is very cute!!

My favorite food is cheese. I think it is the most delicious food in the world. There aren't any foods that I especially hate, but I don't like spicy foods. I just can't eat them. I don't have any allergies, so you don't have to worry about it.

・ I'd like to introduce myself. I'm 15 and in the 1st grade in high school. My favorite subject is biology. I'm a member of the hydra project and I study about bivalves. My hobby is catching insects, fishing and taking care of pets such as lizards. I like poikilothermic animals like reptiles, insects and fish. So I really enjoy these things. I have two lizards.

They are so cool. About insects, my favorite one is mantises. I make specimens and I study about them hard. I also like reading comic books. My favorite one is assassination classroom.

If you are interested in Japanese manga, I'll tell you about them a lot.

7:30 名大附属中高 集合 金閣寺、清水寺、伏見稲荷

17:00頃 名大附属到着

10月15日 (火)

名大附、瑞陵 それぞれで学校体験

10月16日 (水)

8:30 名大附属の留学生は玄関集合

9:00 瑞陵の留学生は東山動物園正門集合 (梶野引率)

13:25 名古屋大学キャンパスツアー (瑞陵高校生参加) ノーベル展示室前集合
ノーベル展示室、博物館、中央図書館、G30説明

18:00 南部生協で歓迎会 ホストファミリーも参加

20:00 終了

10月17日 (木)

7:00 名鉄金山駅集合

10:30 セントレア出発 JL-6805

(文責 三小田博昭)

3) 日本プログラムの内容

Nagoya JAPAN Itinerary Schedule 2019

10月12日 (土)

8:45 セントレア到着 JL-6804 出迎え

10:00 イオン常滑で昼食

13:30 熱田神宮

15:00頃 瑞陵高校 杉原千畝メモリアル 瑞陵ホストファミリーと合流

17:00頃 名大附属到着 名大附ホストファミリーと合流

10月13日 (日)

ホストファミリーと過ごす

10月14日 (月・祝)

日本文化体験 ※ホストファミリーも参加可能
