

A close-up photograph of a pair of hands gently cradling a small, colorful globe of the Earth. The globe shows continents in various colors (green, yellow, brown) and oceans in blue. The hands are positioned as if supporting the globe from below and sides. The background is a soft, out-of-focus brown color.

Challenges to the Global Order

International Politics 2023 Session 13

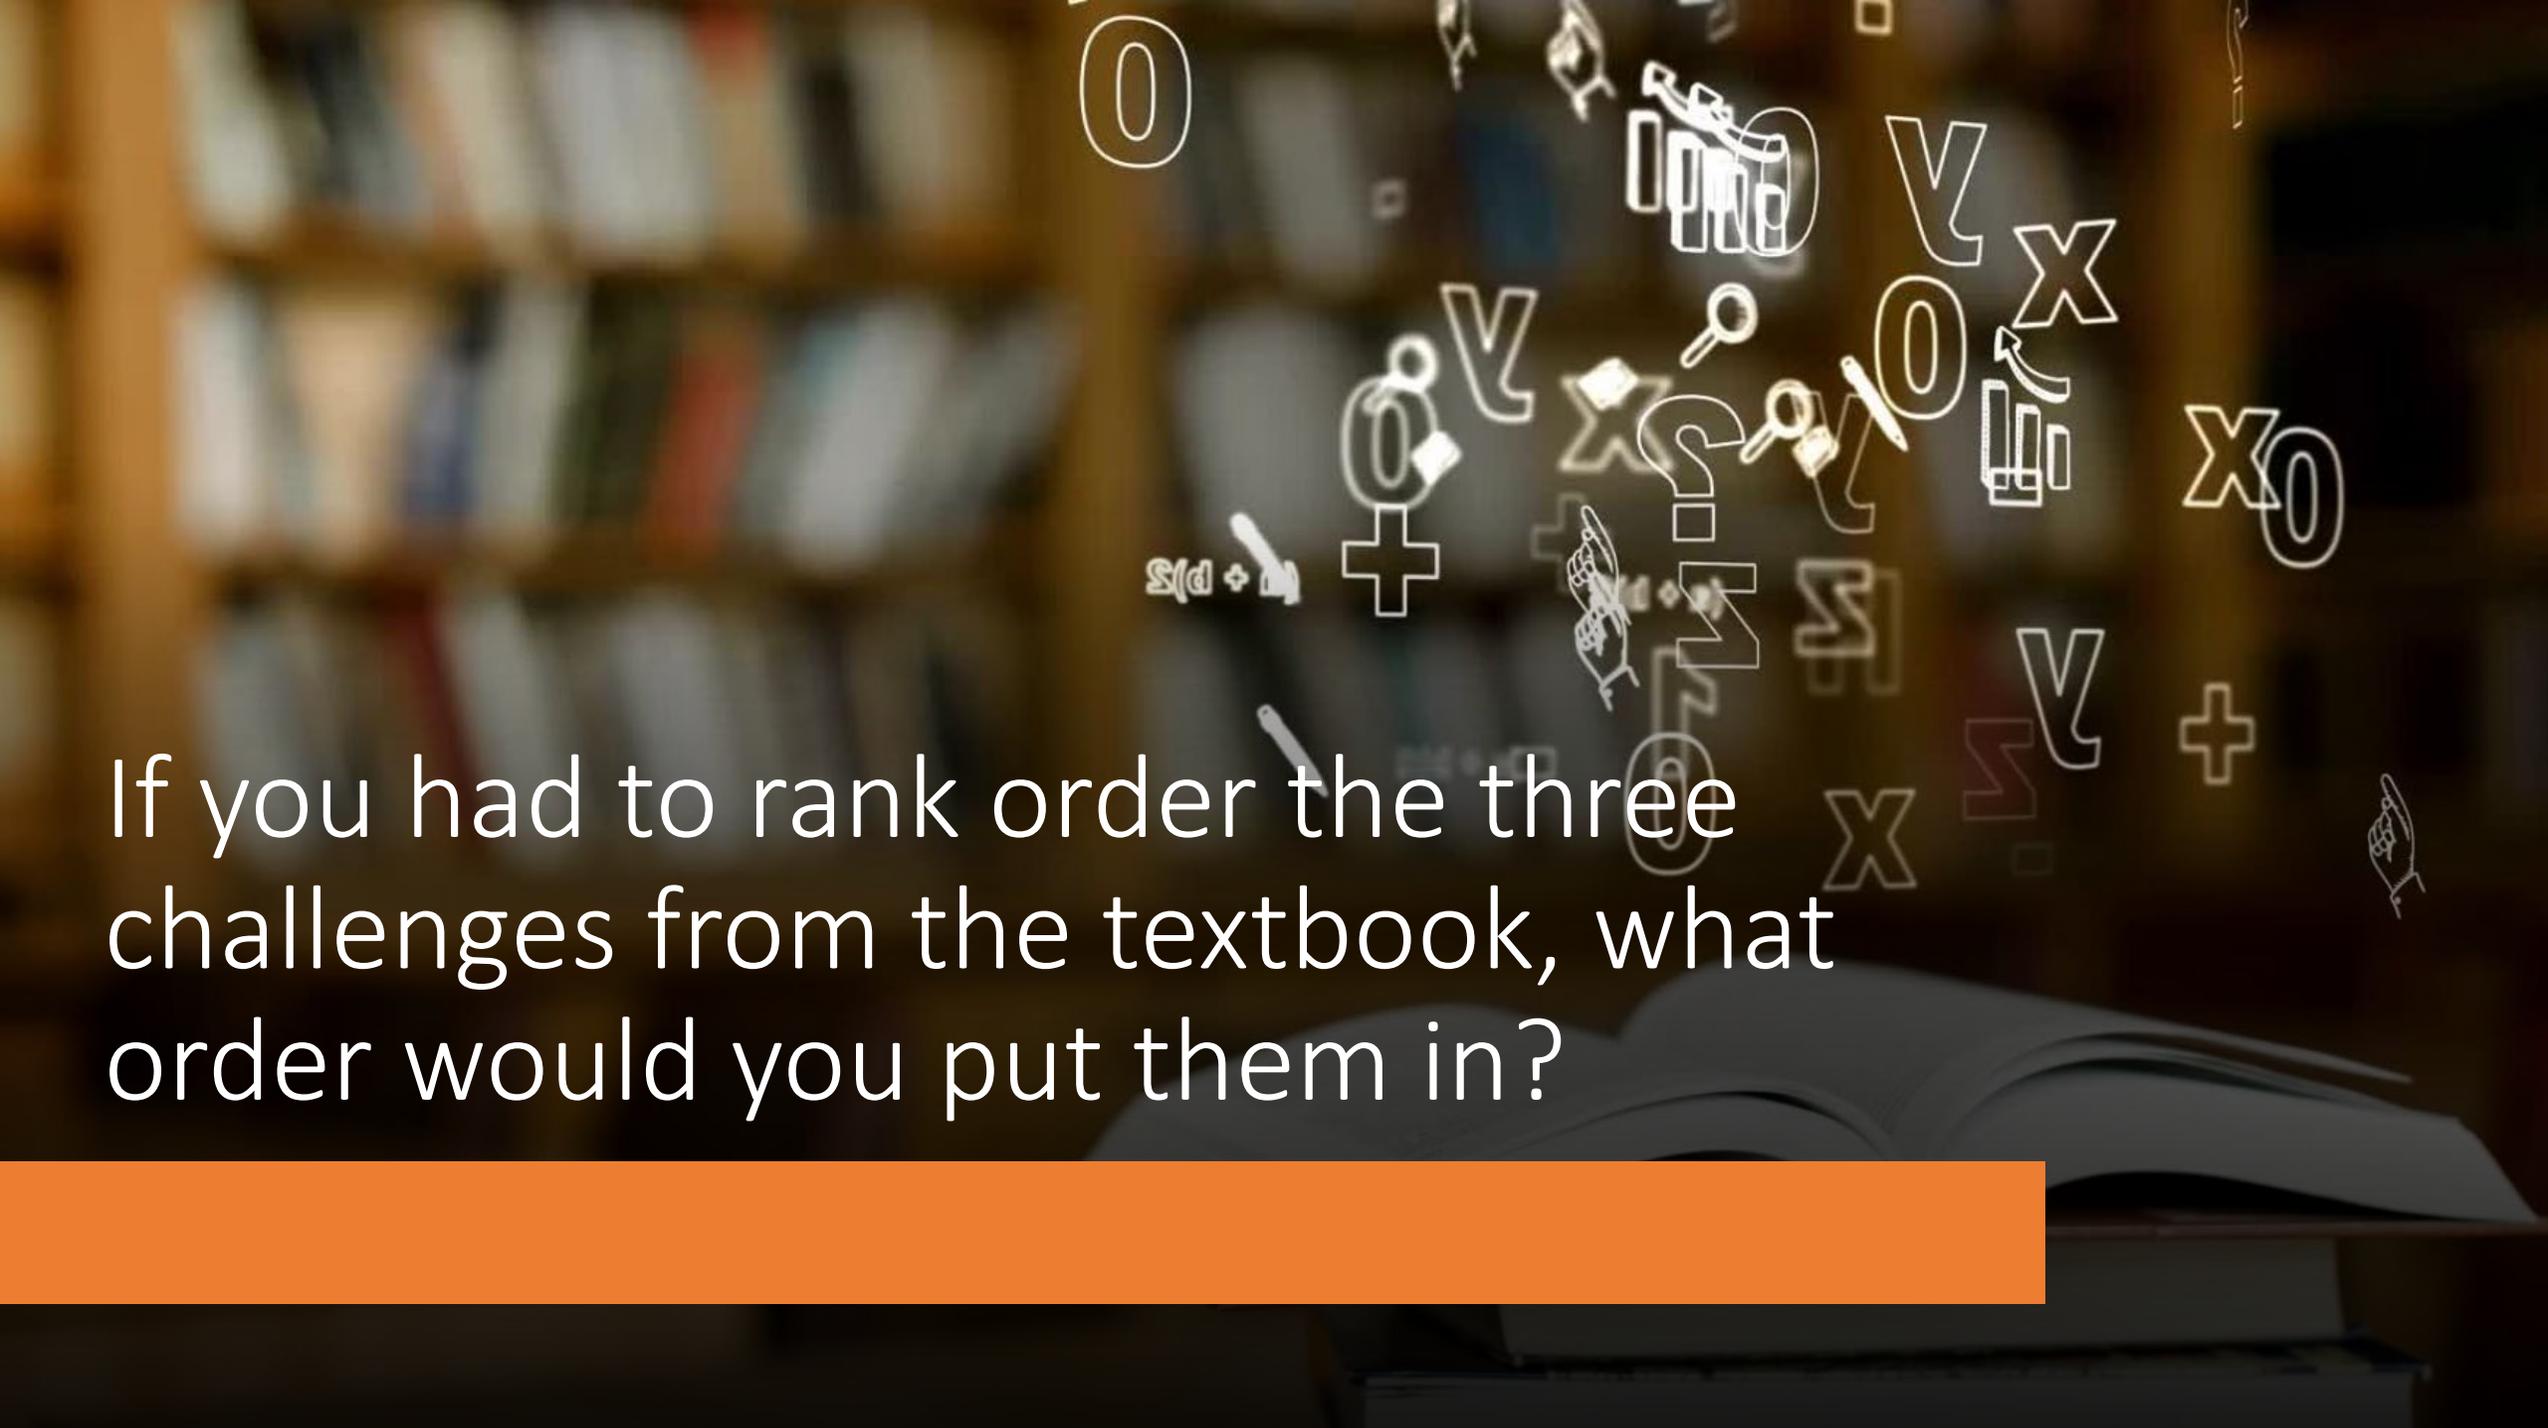

What do the authors identify as the three principal threats to the global order?

- WMD/cyber
- Rise of China as a superpower
- Opposition to economic globalization

What other threats or challenges could we add?

How might this list change if we were using a textbook written in China?

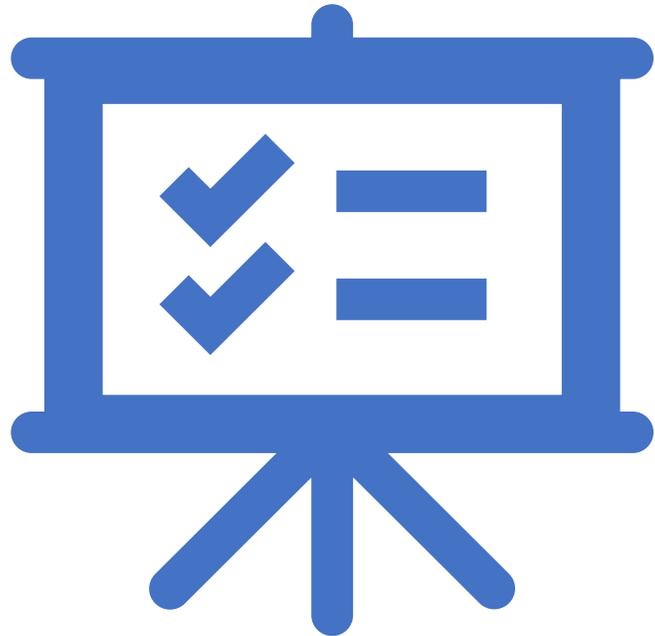

The background features a dark, blurred image of an open book at the bottom. Scattered across the upper and middle sections are various white mathematical symbols and icons, including the number 0, the Greek letter lambda (λ), the letter X, a plus sign (+), a question mark (?), a magnifying glass, a pencil, a hand holding a pen, and a bar chart. The overall aesthetic is educational and abstract.

If you had to rank order the three challenges from the textbook, what order would you put them in?

What gives you hope?

What signs or evidence do we have that international cooperation is succeeding or could succeed?

Preparing for the simulation presentation

- Plan for about 20 minutes
- The presentation should cover the basic information about your country, your objectives, strategies and evaluation of the effectiveness of your choices
- Try to relate your choices and outcomes to some of the key concepts we explored this semester
- The TACT Resources folder has 3 reports from last semester, from the winner, middle-of-the-pack and last-place students (Tikas Todos PDF, KoY PDF and Zlandia PDF) to serve as guidelines
