CONTENTS

- Optimal Control of Distributed Parameter Systems.
.....Yasuyuki Funahashi, Takumi Nomura, and Kahei Nakamura 189
- Some Properties of Ionizing Radiations and Radioactive Ions
in the Natural Environment.....Minoru Kawano,
Yukimasa Ikebe, Yoshiyuki Nakashima, Takeyoshi
Nakayama, Michikuni Shimo, Susumu Minato and Takao Iida 250
-

Research Reports

- Titanoxyd im Gleichgewicht mit Eisen-Titan-Legierung bei
1600°C.....Yasushi Kojima, Michio Inouye und Jun-ichi Ohi 273
- The Effect of Flat Shaft on the Unstable Vibrations of a
Shaft Carrying an Unsymmetrical Rotor (Part II. Experi-
mental Treatment).
.....Toshio Yamamoto, Hiroshi Ōta and Kazutoyo Kōno 287
- Characteristics of Output Powers of Pulsed Argon-ion Lasers
in Gas Mixtures.
.....Toshio Goto, Koichi Nakamura and Shuzo Hattori 294
- On the Large Deflection of an Annular Plate of the Material
Having a Non-linear Stress-strain Relation.....
.....Yoshio Ohashi and Norio Kamiya 303
- An Investigation on the Interaction between a Supersonic
Boundary layer and a Shock Wave Produced by the Wedge
Shape.Shigeo Uchida 317
- On the Characteristics of Two-dimensional Slide Plate of
Ground Effect Machines with Small Attack Angle.....
.....Kyoshi Watanabe, Hiroo Hirano and Shigeo Uchida 331
