CONTENTS

- Photoelastic Analysis of the Maximum Stress in a Plate with
a Reinforced Circular Hole under Uniaxial Tension.....
.....Masaichirō Seika 177
- The Damping Effect on Unstable Whirlings of a Shaft Car-
rying an Unsymmetrical Rotor.
.....Toshio Yamamoto and Hiroshi Ōta 197
- An Electron Energy Analyser with a Retarding Potential
Filter and a New Differentiating System.....
.....Tamotsu Ohno and Ryoji Abe 218

Research Reports

- Error Analysis on Various Electrical Analogues Solutions for
One, Two and Three Dimensional Heat-Conduction Partial
Differential Equations..... Akira Tsuboi and Mahito Ichikawa 228
- Microwave Reflection Measurement of Electron Densities in
Electromagnetically Driven Shock Produced Plasmas.....
.....Akimasa Funahashi and Susumu Takeda 250
- Effects of Several Elements of Bare Electrode Steel Wire for
Gas Shielded Metal Arc Welding.
.....Isao Masumoto, Kaneyuki Imai and Kazuo Matsuda 270
- Studies in Non Uni-dimensional Filtration. Filtration on Cylin-
drical Spherical and Square Surfaces.
.....Mompei Shirato and Kazumasa Kobayashi 280
- On a Similar Solution of Laminar Half Jet Along a Curved
Streamline.
.....Shigeo Uchida, Kyoshi Watanabe, and Haruhiko Takada 293
- Optimum Condition for Developing SWR Films.....
.....Katsuhiko Okada and Kogo Kamiya 306
- The Dependency of the Electromotive Force of Ag/AgCl
Electrode on the Chlorine Pressure.
..... Michio Iseki and Tomoo Kirihara 310
