CONTENTS

- Some Properties of Naturally Occuring Radiations and
Radioactive Ions in the Atmosphere. Minoru Kawano,
Yukimasa Ikebe, Yoshiyuki Nakashima and Kuniyasu Shimizu 125

Research Reports

- An Improved Hot-Wire Anemometer.
..... Yoshimasa Furuya, Eiichi Tanaka and Tokihiro Kushida 160
- Lightning Arrester Performances Associated with the Switch-
ing Operation in a 275 kV Substation.
..... Iwao Miyachi and Yukio Kito 166
- An Application of Pseudo-Boolean Programming to the State
Assignment of Sequential Circuits with High Reliability.
..... Yasuyoshi Inagaki and Kazue Sugino 173
- The Effect of Water Vapor on the Rate of Reduction of Iron
Ore by Hydrogen. Koin Ito and Kokichi Sano 185
- Mathematical Model for Fluidized-Bed Reactor.
..... Shigekatsu Mori and Iwao Muchi 193
- On the Jet Mixing which Consists of Laminar and Turbulent
Regions. Haruhiko Takada and Shigeo Uchida 204
- Solutions for Spherical Shells under Concentrated Forces and
Moments. Osamu Matsuoka and Tetsuya Matsui 216
