CONTENTS

Electric Breakdown Phenomena of Dielectric Liquids in High Frequency Field.	Minoru Ueda and Masakazu Ito	1
--	------------------------------	---

Research Reports

Effects of Insulating Film on Negative Point Corona at Atmospheric Pressure.	Masayuki Ieda, Goro Sawa and Ukichi Shinohara	30
The Impedance Formula for a Partially Ionized, Collision-Dominated Plasma.	Takayoshi Okuda and Kenzo Yamamoto	39
Note on Sheath Formation.	Shigeki Miyajima	55
Hydraulic Pressure Distribution in Filter-cakes under Constant Pressure Filtration.	Mompei Shirato, Masao Sambuichi and Toshiro Murase	68
Collisionless Expansion of Gases of Finite Amount into Vacuum. ...	Shigeo Uchida, Kyoshi Watanabe and Haruhiko Takada	80
Zur Unendlichen Reihen Besselscher Funktionen.	Ei Iti Takizawa und Keiko Kobayasi	88
Experiments on the Comparison between Cascade and Axial-Flow Compressor Performances.	Shintaro Otsuka	97
Shear Buckling of Simply-Supported Infinitely Long Plates Reinforced by Oblique Stiffeners.	Tatsuzo Maeda and Tohru Nishimura	110
Complex Transformation of the Differential Equations of Thin Elastic Shells by the Consistent Theory when Poisson's Ratio is Equal to Zero.	Osamu Matsuoka	119
