

Research Reports of the Faculty of
Engineering, Nagoya University

IV-2 (1951)

I N D E X

Original Papers

- O-048: An Operational Analysis of Non-Linear Differential Equation, Tan TAKAHASHI.
- O-049: Concentration of Heavy Water by the Rotary Concentric-Tube Distilling Column, Noriyoshi MORITA.
- O-050: On the Chemical Absorption of CO-Gas by Ammoniacal Copper Solution (I), Absorption Equilibrium, Kakusaburo ONDA, Shoji AISO and Hiroshi SUZUKI.
- O-051: Study on the Utilization of Wood-Tar (6), Study on Viscosities of Wood-Tar, Kakusaburo ONDA.
- O-052: Analytical Studies on Voice- and Speech-Qualities by the Distortion of Out-Of-Synchronism in the Carrier-Frequency Telephone Transmission Systems, Yoshiyuki OCHIAI, Tatsuo NAGASE and Joji KATO.
- O-053: A la Recherche du Timbre des Voyelles (Rapport Préliminaire), Quelques Considérations basées aux Expériences sur la Structure de Timbre Sonore des Voyelles soutenues, Yoshiyuki OCHIAI, Tohru YAMASHITA et Akio FUKUMURA.
- O-054: Sur l'Accord des Volumes Sonores de Voix Transmise (II), Yoshiyuki OCHIAI, Shuzo SAITO et Seishin WATANABE.
- O-055: On the Viscous Flow Past a Rotating Sphere at Small Reynolds Number, Ichizo NINOMIYA.
- O-056: Method of Measuring Dielectric Constants and Loss Angles of Semi-Conductor, Bunjiro ITIJŌ and Ukichi SHINOHARA.
- O-057: On Rigidity of a Skew Cantilever Box Beam, Tōru NISHIMURA.
- O-058: A Hot-Wire Anemometer for the Measurement of Turbulence in Fluid Machinery, Yoshimasa FURUYA and Akio TERAŌ.
- O-059: Eine Bemerkung zur Integralgleichung erster Art in der Berührungstheorie fester elastischer Körper, Eiiti TAKIZAWA.
- O-060: Super-Sonic Effect on Ripening of Wines, Kazuo TSUCHIYA and Mitsuoki ANDŌ.
- O-061: Production of Iron Crystals by Recrystallization Method, Osamu YAMADA.
- O-062: The Experiments on the Improvement of Resolution in Electron Diffraction Cameras, Susumu MARUSE and Masahiro KATO.

- O-063: On the Resolving Power of the Electron Diffraction Camera with Two Electron Lenses, Susumu MARUSE and Masahiro KATO.
- O-064: Voltage Stabiliser for Electron Microscope, Hiroshi TOMITA and Masao KOZUKA.

Abstract from Papers Published or Read

- 1-A-01: The Critical Micelle Concentration of Soap Solutions, Yuzuru ŌSHIKA.
- 1-B-01: The Interrelation between the H-Bond System and the π -Electron System, Isao OSHIDA and Yuzuru ŌSHIKA.
- 1-B-02: Refractive Indices of Liquids Consisting of Ellipsoidal Molecules, Yuzuru ŌSHIKA.
- 2-A-01: The Ultraviolet Absorption Spectra of Glasses (2), Kikusaburo OSADA.
- 2-A-02: On the Deviation from the Ohm's Law at the Anode Surface of the Cuprous Oxide Rectifiers, Mituo ONO.
- 2-B-01: On the Impulse Measurements of Semiconductor Rectifiers, Mituo ONO.
- 2-B-02: On the Impulse Measurements of Semiconductor Rectifiers, Mituo ONO.
- 2-B-03: On the Voltage Creep of the Semiconductor Rectifiers, Mituo ONO.
- 2-B-04: On the Theory of the Creep of the Semiconductor Rectifiers, Mituo ONO.
- 2-B-05: On the Variable Capacitance Dielectrics, Mituo ONO and Tadami NAKAYAMA.
- 2-C-01: On the Condensers whose Capacity Can Be Regulated with the Bias Voltages, Mituo ONO.
- 3-B-01: Photo-Elastic Investigation on the Stress Distribution in a Sagger for Ceramics, Isamu IMACHI and Kin-ichi ONISHI.
- 3-B-02: On a Contribution to Numerical Calculation of Differential Equations, Tōru NISHIMURA.
- 4-A-01: On the Upsetting of Metals by the Electrical Resistance Heating, Shizuo DOI and Hajime KURITA.
- 4-A-02: On the Condition of Contact of a Blank and the Blank-Holder in Deep Drawing, Yasuo KASUGA.
- 4-A-03: Effects of Holding Force on the Deformation in Deep Drawing, Yasuo KASUGA.
- 4-A-04: Magnetic Amplifier for Measuring the Temperature of Rotating Bodies, Akira KOBAYASHI, Yoshio FUJIMOTO and Kō TERADA.
- 4-A-05: Directions for Use of the Wet-Bulb Psychrometer at High Temperature or Low Pressure, Koichi IINOYA and Norio KIMURA.
- 4-B-01: Effects of Bearing Condition of the Spindle on the Occurrence of Chatter, Shizuo DOI.
- 4-B-02: Research on the Chatter of Lathe Tools, Shizuo DOI.
- 4-B-03: On the External Friction Occurred in Deep Drawing, Yasuo KASUGA.
- 4-B-04: Measuring the Temperature of Rotating Bodies with a Magnetic Amplifier, Akira KOBAYASHI, Yoshio FUJIMOTO and Kō TERADA.
- 4-B-05: Observation of Work Gas with Cathode Ray Oscilograph, Akira KOBAYASHI, Yoshio FUJIMOTO and Shiōshi SHIMIZU.

- 4-B-06: Heat Transfer from Vertical Plate Having the Natural and Forced Convection (I), Ikuo MABUCHI.
- 4-B-07: Semi-Numerical Solution of Heat Conduction, The Thermal Properties Being Functions of Temperature, Ikuo MABUCHI.
- 4-B-08: A Criticism for Drying Theory Having only the 2nd Falling Rate of Drying, Ikuo MABUCHI.
- 4-B-09: On the Vibrations of the Draft Tube of a Water Turbine, Mitsukiyo MURAKAMI.
- 4-B-10: On the Free Vibrations of Fluid Columns in the Pipe with a Sudden Change of Cross Sectional Area, Tadayo ITO.
- 4-B-11: Experiments on the Coefficient of Surface Evaporation at the Constant Drying Rate Period, (Effects of Partial Vapour Pressure, Temperature and Air Velocity), Koichi IINOYA and Norio KIMURA.
- 4-B-12: Study on the Air Lift Pump, (1st Report: When Used as a Water Pump), Koichi IINOYA.
- 4-B-13: Study on the Cyclone, (3rd Report: Experiments on Large Cyclone Dust Collectors), Koichi IINOYA.
- 4-B-14: A Study on the Hydrodynamical Behaviour of Chemically Unstable Gases (Combustion Gases), Toyoki KOGA and Kichiro TAKAO.
- 4-B-15: On the Curved Shock Waves, Ichizo NINOMIYA.
- 4-B-16: On the Viscous Flow Past a Rotating Sphere at Small Reynolds Numbers, Ichizo NINOMIYA.
- 5-A-01: Studies on Electro-Magnetic Shielding, Bunjiro ITIJŌ and Ukichi SHINHARA.
- 5-A-02: The Behaviour of High Resistance at High Frequencies, Bunjiro ITIJŌ.
- 5-A-03: Comparison of the Two Methods of Magnetic Measurement; The So-Called Draw-Out Method and the So-Called Field Changing Method, Yoneichiro SAKAKI, Osamu YAMADA and Susumu MARUSE.
- 5-A-04: Production of Large Single Crystals of Non-Metallic and Metallic Substances, Yoneichiro SAKAKI, Osamu YAMADA and Susumu MARUSE.
- 5-A-05: On the Principle and Application of Electron Microscope, Yoneichiro SAKAKI, Hiroshi TOMITA, Tamotsu NODA and Masahiro KATŌ.
- 5-A-06: On the Temper Brittleness of Various Steels, Chiaki ASADA, Isamu EGUCHI and Masahiro KATŌ.
- 5-A-07: The Electron Microscopic Study for Metallic Structures, Yoneichiro SAKAKI and Isamu EGUCHI.
- 5-A-08: Neutral Potential Tracer and Its Applications to Power Engineering, Iwao MIYAJI.
- 5-A-09: Transient Displacement of Neutral Potential and Durable Overvoltages Due to One-Line-Grounded and One-Line-Broken Faults in Arc-Suppressing Reactor Systems, Iwao MIYAJI.
- 5-A-10: Reduction of Loss by Balancer on Distribution Line, Akihide UIMITSU and Tamotsu TAKEYASU.
- 5-A-11: Selection of Conductor Size of Distribution Line, Akihide UIMITSU.
- 5-A-12: Impedance of the 3 Phase 4 Wire System Line, Akihide UIMITSU and To-

- kutaro IMURA.
- 5-A-13: On the Poly-Vinyl-Chloride Sheet Packing of Food by the Dielectric Heating, Susumu FUJIMOTO and Ukichi SHINOHARA.
- 5-A-14: On the Dielectric Property of the Poly-Vinyl-Chloride, Susumu FUJIMOTO and Ukichi SHINOHARA.
- 5-A-15: On the Meaning of the Decreasing Drying Period of the Drying Mechanism, Ukichi SHINOHARA and Koji IWATA.
- 5-A-16: Ripening Effect of High Frequency Electricity upon Mixture of Organic Substances (Part II), Kōjū NOGUCHI.
- 5-A-17: Artificial Seasoning of Synthesized Drinkables, Eatables and Perfumes by Means of High Frequency Electricity (Part IV), Kōjū NOGUCHI and Yoneichi INAGAKI.
- 5-B-01: Magnetic Measurement of Rectangular Sheet (Determination of Demagnetizing Factor of Thick Material), Yoneichiro SAKAKI, Osamu YAMADA and Akiko YAMADA.
- 5-B-02: On the Iron Loss at High Magnetic Flux Density, Yoneichiro SAKAKI, Osamu YAMADA and Susumu MARUSE.
- 5-B-03: Production of Iron Crystals by Using Kernels, Yoneichiro SAKAKI and Osamu YAMADA.
- 5-B-04: The Study of the Electric Discharge at the Wet Dielectrics, Ukichi SHINOHARA and Masayuki KIMURA.
- 5-B-05: Discharge Characteristics of Hot Cathode Discharge Tube, Kenzo YAMAMOTO, Masao KOZUKA, Kensuke HONDA, Masaichi KOBAYASHI and Kanehiro NOBATA.
- 5-B-06: Voltage Stabiliser for High Voltage Supply, Yoneichiro SAKAKI, Hiroshi TOMITA and Masao KOZUKA.
- 5-B-07: Voltage Stabiliser for High Voltage Supply of Electron Microscope, Yoneichiro SAKAKI, Hiroshi TOMITA and Masao KOZUKA.
- 5-B-08: High Resolution Electron Diffraction Camera and Its Applications, Yoneichiro SAKAKI, Susumu MARUSE and Masahiro KATŌ.
- 5-B-09: Electron Diffraction Study of Metallic Surfaces, Yoneichiro SAKAKI, Chiaki ASADA and Isamu EGUCHI.
- 5-B-10: Measurement of the Resolving Power of an Electron Diffraction Camera, Yoneichiro SAKAKI, Susumu MARUSE and Masahiro KATŌ.
- 5-B-11: Coherent Scattering and Resolution (I), Yoneichiro SAKAKI and Susumu MARUSE.
- 5-B-12: On the 120 kV Electron Microscope, Yoneichiro SAKAKI and Susumu MARUSE.
- 5-B-13: Theoretical and Experimental Analysis of One-Line-Broken Overvoltages in Arc-Suppressing Reactor Systems, Iwao MIYAJI and Norio SHIMURA.
- 5-B-14: Switching Overvoltages in Arc-Suppressing Reactor Systems, Iwao MIYAJI and Norio SHIMURA.
- 5-B-15: Vector Loci of Ground Potentials Caused by Combined Grounded and Broken Faults in Arc-Suppressing Reactor Systems, Iwao MIYAJI and Norio SHIMURA.

- 5-B-16: Abnormal Voltage in the Reactor Compensated Transmission System (XI), Iwao MIYAJI.
- 5-B-17: Theoretical Foundation of Experimental Composition of Vector Quantities by Making Use of Ring Rectifiers, Iwao MIYAJI.
- 5-B-18: Characteristic Analysis of Induction Motors by a Circle Diagram Visualyser, Iwao MIYAJI.
- 5-B-19: Examination of Circle Diagram Characteristics of Induction Motors by Direct Observation Method, Iwao MIYAJI.
- 5-B-20: On the Distribution of Field Phase Angles in the Vicinity of Transmission Lines, Iwao MIYAJI and Yasuo NAGANO.
- 5-B-21: Experimental Services of a Newly Designed Water Level Telemetering System, Iwao MIYAJI.
- 5-B-22: An Examination of the Measurements of Transient Current in the Transmission Line, Yasuo Nagano and Iwao MIYAJI.
- 5-B-23: Relation between Switching Phases and Kipp-Phenomena in Ferroresonance, Yasuo NAGANO.
- 5-B-24: Distribution System for the Intermittent Load, Akihide UIMITSU and Hisao HOSOE.
- 5-B-25: Model Circuit for Distribution Line, Akihide UIMITSU.
- 5-B-26: Study of the High Frequency Drying of the Armature of DC Generator, Akihide UIMITSU and Naomi FUKUDA.
- 5-B-27: The Study of Painting under Electro-Static Shield, Ukichi SHINOHARA and Susumu FUJIOKA.
- 5-B-28: On the Accuracy of Moisture Content Meter Using Q Meter Method, Ukichi SHINOHARA, Shigekatsu ŌTORI and Yohachi WATANABE.
- 5-B-29: Surrounding Condition at High Frequency Dielectric Heating of Grain, Ukichi SHINOHARA and Shigekatsu ŌTORI.
- 5-B-30: On the Poly-Vinyl-Chloride Sheet Packing of Food by the Dielectric Heating, Susumu FUJIMOTO and Ukichi SHINOHARA.
- 5-B-31: On the Drying Characteristics at the High Frequency Heating of Clay, Ukichi SHINOHARA and Koji IWATA.
- 5-B-32: On the Meaning of the Decreasing Drying Period of the Drying Mechanism, Ukichi SHINOHARA and Koji IWATA.
- 5-B-33: New Type Apparatus for Measuring Water Content Absorbed in Various Substances, Bunjiro ITIJŌ.
- 5-B-34: Capabilities of Using Conducting Rubber Instead of Metal Electrodes, Bunjiro ITIJŌ.
- 5-B-35: Some Studies on Coils Used in High Frequency Surface Hardening of Metal, Bunjiro ITIJŌ and Ukichi SHINOHARA.
- 5-B-36: Relation between Viscosity and Electric Seasoning of Alcoholic Drinkables, Kōjū NOGUCHI and Yoneichi INAGAKI.
- 5-B-37: On the Static Structure of Sustained Vowels, Yoshiyuki OCHIAI and Tohru YAMASHITA.
- 5-B-38: On the Deterioration of Voice Qualities of the Speech Sounds by Synchronism-Distortion in the Carrier-Frequency Telephone Transmission System

- (I), Yoshiyuki OCHIAI.
- 5-B-39: On the Deterioration of Voice Qualities of the Speech Sounds by Synchronism-Distortion in the Carrier-Frequency Telephone Transmission System (2nd Report), Yoshiyuki OCHIAI, Tatsuo NAGASE and Joji KATO.
- 5-B-40: Some Fundamental Considerations on the Problem of Vocal Timber from the View-Point of So-Called Subjective Transmission, Yoshiyuki OCHIAI.
- 5-B-41: Some Notes on Voice- and Vowel-Analysis, Yoshiyuki OCHIAI, Tohru YAMASHITA and Akio FUKUMURA.
- 5-B-42: On the Loudness Matching of Speech Sounds, Yoshiyuki OCHIAI, Syuzo SAITO, Seishin WATANABE and Seiji KOBAYASHI.
- 5-B-43: Speech Speed Meter, Kazuo TUCHIYA.
- 5-B-44: Pitch-Meter by Double Detecting Method, Kazuo TUCHIYA and Yasushi NAKAMURA.
- 5-B-45: On the Characteristics of the New Type Wattmeter, Kahei NAKAMURA.
- 5-B-46: Wide Band Cathode Follower Amplifier, Masahiro MORI.
- 5-B-47: On the Dynamic Mutual Conductance of Pentodes, Kahei NAKAMURA.
- 5-B-48: On the Automatic Matching of Oscillator, Kahei NAKAMURA.
- 5-B-49: On the Actual Data for New Type Wattmeter, Kahei NAKAMURA.
- 6-A-01: Granulizing of Eutectic Silicon in Silmin by Heat Treatment, Hachie SAWAMOTO.
- 6-B-01: Research on Superlattices in Fe-Cr System (Report V), Crystal Structure of the Superlattice Fe₃Cr, Shūzō TAKEDA and Naoki NAGAI.
- 6-B-02: Research on Superlattices in Fe-Cr System (Report VI), On the Transformation of the Superlattice FeCr to Intermetallic Compound σ -Phase, Shūzō TAKEDA and Naoki NAGAI.
- 6-B-03: Research on Superlattices in Fe-Cr System (Report VII), Theory of the Formation of Superlattice FeCr, Shūzō TAKEDA and Yoshiroh IWAMA.
- 6-B-04: Age-Hardening of Mg Alloys (IV), Chūyō HISATSUNE, Seiki NISHI and Ken-ichi INABA.
- 6-B-05: A Study on the Carbo-Nitriding (Part 1), The Carburizing by Acetylene Gas, Chūyō HISATSUNE, Fumitaka YOSHIKAWA and Yoshibumi MIZUTANI.
- 6-B-06: A Study on High Tension and Ductile Cast Irons (I), Chūyō HISATSUNE, Yoshisada UEDA and Takeo SHINODA.
- 6-B-07: A Study on High Tension and Ductile Cast Irons, Chūyō HISATSUNE, Yoshisada UEDA and Takeo SHINODA.
- 6-B-08: The Study of Hydrogen Treatment of Silicon-Steel Sheet, Kokiti SANO and Shin MINOWA.
- 6-B-09: On the Carburization and Decarburization of Silicon-Manganese Spring Steel, Kokiti SANO and Atushi KIHIRA.
- 6-B-10: Effect of Copper on Activity Coefficient of Carbon in γ -Iron, Kokiti SANO, Taizo YOSHIDA.
- 6-B-11: The Production of Extra Low Sulphur Content Pig Iron with Lime as Desulphurizer, Kokiti SANO and Hiroshi SAKAO.
- 6-B-12: Some Physico-Chemical Studies of Iron and Steel Making Process, Kokiti

SANO.

- 6-B-13: Desulphurization Equilibrium by Manganese of Carbon Saturated Molten Iron (2nd Report), Effect of Silicon, Kokiti SANO and Mitio INOUE.
- 6-B-14: On Dimensional Change Due to Annealing Copper and α -Brass Bars Plastically Elongated or Compressed, Harujirō SEKIGUCHI and Michio INAGAKI.
- 6-B-15: Some Micro-Observations of the Brittle Fractures in Columnar Crystals of Mild Steel Arc Welds, Takuro KOBAYASHI.
- 7-B-01: Colorimetric Determination of Minute Amounts of Selenium in Sulfuric Acid, Ammonium Sulfate and Pyrite, Shizō HIRANO, Masami SUZUKI and Tarō NOGUCHI.
- 7-B-02: Determination of Arsenic Using Titanous Sulfate as Reducing Reagent, Daido ISHII.
- 9-A-01: Fat Industry in Japan, Yoshiyuki TOYAMA.
- 9-A-02: The Course of the Oxidation of Methyl Linolenate, Yoshiyuki TOYAMA and Iwao MATSUMOTO.
- 9-A-03: Hydroxy Acids of Beeswax, Yoshiyuki TOYAMA and Hiroshi HIRAI.
- 9-A-04: Properties and Refining of Rice Bran Wax, Yoshiyuki TOYAMA and Tōru TAKAGI.
- 9-A-05: Phosphatide Components in Benzene Extraction Soy Bean Oil Foots, and Preparation and Refining of Phosphatide, Yoshiyuki TOYAMA and Takahisa TOYAMA.
- 9-A-06: Solvent Fractionation of Rice Bran Oil with High Acid Value, Yoshiyuki TOYAMA and Yasuhisa TOYAMA.
- 9-A-07: Trial of Dodecyl Phenol Sulfonate and Its Halogen Derivatives as Antiseptics, Kazuo FUKUZUMI.
- 9-A-08: Trial of α -Chlorodibutyl Naphthalene Sulfonic Acid as Fat-Splitting Agent, Kazuo FUKUZUMI and Shinpei OZAKI.
- 9-A-09: Trial of Tri- and Tetra-Butyl Naphthalene Sulfonic Acids as Fat-Splitting Agents, Kazuo FUKUZUMI and Shinpei OZAKI.
- 9-A-10: Properties of Tetrabutyl Naphthalene Sulfonate as Detergent, Kazuo FUKUZUMI, Shinpei OZAKI and Yutaka YAMADA.
- 9-A-11: On the Dissociation Equilibrium of High-Molecular Weak Electrolytes, Ikumi KAGAWA and Kakuji KATSUURA.
- 9-A-12: Ripening Reactions of Viscose, Ikumi KAGAWA and Haruo KOBAYASHI.
- 9-A-13: Measurement of Crystal Size, Lattice Distorsion and Particle Size Distribution by X-Ray, Tokiti NODA.
- 9-A-14: Crystal Chemistry and Raw Materials of Porcelain, Tokiti NODA.
- 9-A-15: A Retort on Lignites Carbonization, Ichiro MIYAGAWA and Shozo SADAMOTO.
- 9-B-01: Studies on the Electrolytic Reaction of Manganese Dioxide (III), Kumazō SASAKI and Mitsusada CHINO.
- 9-B-02: Studies on the Arsenates (IX), Oxidation of Arsenious Acid by Manganese Dioxide, Takehiko TAKAHASHI, Mitsuru SAKURAI and Kumazo SASAKI.

- 9-B-03: Chlorination of the Aluminites, Takehiko TAKAHASHI.
- 9-B-04: Conductometric Studies on Polyelectrolyte Solutions (II), On the Conductivity of Polymeric Acid, Ikumi KAGAWA, Kakuji KATSUURA and Masao ISHII.
- 9-B-05: Conductometric Studies on Polyelectrolyte Solutions (III), Influence of Temperature upon the Conductivity of Polymeric Salt Solutions, Ikumi KAGAWA, Kakuji KATSUURA and Masao ISHII.
- 9-B-06: Micromethod of Determining Carbon in Porcelain, Comparison of the Dry Method with the Wet Method, Tokiti NODA and Minoru HIRAO.
- 9-B-07: X-Ray Study of Carbon Brushes, Tokiti NODA and Shinya SATO.
- 9-B-08: Study on the Carbeneous Materials and Their Graphitic Action, Sachio SUGIYAMA.
- 9-B-09: On the Manufacture of the So-Called H.C., Sachio SUGIYAMA.
- 9-B-10: Study on the Carbeneous Materials and Their Graphitic Action, Sachio SUGIYAMA and Katsumi NAGASAKA.
- 9-B-11: Study on the Carbeneous Materials and Their Graphitic Action, Sachio SUGIYAMA and Katsumi NAGASAKA.
- 9-B-12: Study on the Carbeneous Materials and Their Graphitic Action, Sachio SUGIYAMA and Katsumi NAGASAKA.
- 9-B-13: Study on the Carbeneous Materials and Their Graphitic Action, Sachio SUGIYAMA and Katsumi NAGASAKA.
- 9-B-14: On the Crystallizing-Heat and -Point of the Colored Mica, Nobutoshi DAIMON.
- 9-B-15: The Synthesis of Li-Mica, Nobutoshi DAIMON.
- 9-B-16: Industrial Applications on Super-Sonics, Ichiro MIYAGAWA.
- 9-B-17: On the Chemical Absorption of CO-Gas by Ammoniacal Copper Solution (I), Kakusaburo ONDA, Shoji AISO and Hiroshi SUZUKI.
- 9-B-18: Effects of Ultrasonics on Solution Polymerisation of Polyvinyl Acetate, Masao KOSHINO and Ichiro MIYAGAWA.
- 9-B-19: The Refining Process of Rancid Oil, Kazuo FUKUZUMI.
- 9-B-20: Twitchell's Fat-Splitting Process to Try Preheating Treatment in, Kazuo FUKUZUMI.
- 9-B-21: Properties of the Detergent Prepared for Trial from Benzene, *n*-Butyl Alcohol, Dodecyl Alcohol, Sulfuric Acid, etc., Kazuo FUKUZUMI.
- 10-B-01: Studies on the Efficiency of the Rotary Concentric-Tube Distilling Column by the Fractional Concentration of Heavy Water, Noriyoshi MORITA.
- 10-B-02: Oxygen-Exchange Reaction between Manganese Oxide and Gaseous Oxygen, Hirotarō SAITO.
-
