CONTENTS

- Experimental Studies on the Mechanism of Electric Spark Discharge Ukichi Shinohara 201
Synthetic Mica. Its Properties and Applications Tokiti Noda 241

Research Reports

- Infra-Red Transmisson of Wood Tarô Suga and Kougo Kamiya 259
The Boltzmann-Maxwell Equation as the Fundamental Equation of Gasdynamics Toyoki Koga 268
Boundary Conditions of Flows Accompanied with Slip on Wall Surfaces Toyoki Koga 274
Three-Dimentional Photoelastic Examination of a Helical Spring Yosio Ôhasi 279
Ein Indikator, der eine Druckskala Zeigt Akira Kobayashi and Kō Terada 284
Timbre Study on Nasalics. Part III—Study on Pattern Difference of Several Vocalics Attributable to Changes in Nasal-Cavity Conditions Yoshiyuki Ochiai and Teruo Fukumura 291
Preliminaries to Analysis of Quality in Speech Communication Yoshiyuki Ochiai and Teruo Fukumura 306
Introductory to the Timbre Study of Forced Vocalics Yoshiyuki Ochiai and Teruo Fukumura 316
Theory of Thermoelectric Refrigeration Susumu Uchiyama 321
Über die Bedingungen für einen Erfolgreichen Gebrauch der Spitzenkathode Susumu Maruse und Kōichi Hara 330
The Highly Unsaturated Acids in Sardine Oil. XXI. Ultraviolet Absorption Spectra for Alkali-Isomerized Polyethenoid Acid Components of Sardine Oil Tsutomu Shimo-Oka and Yoshiyuki Toyama 335
The Highly Unsaturated Acids in Sardine Oil. XXII. An Examination for the Occurrence of Dienoic Acids of C_{16} - C_{22} and Trienoic Acid of C_{20} in Sardine Oil Tsutomu Shimo-Oka and Yoshiyuki Toyama 347
Separation of Octadecadienoic and Octadecatrienoic Acids in the Oil of *Cyprinus auratus* Toru Takagi, Tsutomu Shimo-Oka and Yoshiyuki Toyama 353
Some Notes on Oils Extracted from Dried Saury Tsutomu Shimo-Oka and Yoshiyuki Toyama 360
Autoxidized Oils from Saury Oil and Its Highly Unsaturated Acid Fraction Tsutomu Shimo-Oka, Masako Murase, Takeshi Nakagami and Yoshiyuki Toyama 366
Changes in Sesamol, Sesamolin and Sesamin Content of Sesame Oil in the Course of Its Extraction and Refining Processes Kei Fujimura and Yoshiyuki Toyama 373
Heat Transfer in the Rarefied Gases Kichiro Takao and Tetsuo Fujimoto 379
